

Water Utility Safety and CEU Certification Courses

<p>Confined Space Entry (05110958 0.6 CEUs): Designed for municipal water, waste water and storm water utility employees. Identifies and addresses common city and county permit required confined space situations rarely covered by other programs. Details safe work practices for most types of municipal confined space entry situations.</p>		
<p>Excavating Safety (Comp. Person) 05110989 0.6 CEUs: Designed specifically for municipal water, waste water, storm water utility and public works employees. Identifies and addresses common excavating hazards and details protective measures and safe work practices for all phases of the excavating job.</p>		
<p>Lock-out/Tag-out: 05110990 0.6 CEU's: Reviews a recent history of public sector lock out tag out hazards and common accidents: Reviewed as case studies various incidents applicable to 1910.147(a)(1)(i), the standard that covers the servicing and maintenance of machines and equipment in which the unexpected "energization" or start-up of the machines or equipment, or release of stored energy could cause injury to employees.</p>		
<p>Inspecting Water Utilities Properties 05100987 0.6 CEU's: This program covers basic regulatory compliance by identifying OSHA required features, standard work place safety issues and desirable/undesirable working conditions.</p>		
<p>Water/WW Utility Chemical Safety 05100988 0.6 CEU's: A total chemical management approach is applied referencing GHS, Federal HazCom Standard 1910 Subpart H and 1910.120 requiring specific management practices, the compilation of a chemical inventory and collection and indexing of safety data sheets (SDS).</p>		
<p>Electrical Safety 05100136 0.6 CEU's: General Electrical Maintenance Safety: Combines the principles of electrical safety, lock-out/tag-out, worksite safety engineering, safe work practices and use of protective devices/products, special clothing and personal protective equipment</p>		
<p>Heavy Equipment 05110962 0.6 CEU's: Classroom and Hands-on!</p>		
<p>Water Utility Vehicle Operations 05110963 1.6 CEU's: Designed specifically for municipal public works, water or waste water utility workers and all other city, county or special district employees not in public safety divisions. This program is for good drivers as well as drivers in need of improvement. New and seasoned drivers enjoy the course!</p>		
<p>Water Utility Storm Preparations 05110961 0.6 CEU's: Discusses department level preparedness and reviews list of activities performed on a calendar basis and on a time line basis once an emergency is declared. Detailed activities include items that are critical as storms approach, pass over and exit the community. Many additional activities are detailed related to initiating and completing the recovery process.</p>		
<p>Distribution / Collection Safety Workshop (05110991 0.6 CEUs): Discusses the overall safety plan mission. Introduces the major components of a successful safety plan, how most accidents can be avoided by applying tested safety and loss control strategies.</p>		
<p>Utility Safety Coordinator Cert. Course (05110960 0.6 CEUs): Basic "on premises – on demand" regulatory compliance items for regulatory inspector/compliance officers, insurer loss control representatives and other parties who may visit water or waste water plant locations. The establishment of an employee safety station as an official location for mandatory safety information and safety materials.</p>
